

FACILITATOR'S GUIDE

AF COACH ONBOARDING CURRICULUM

HOW TO USE THIS GUIDE:

- The following guide walks a coach through their first 6 months of onboarding at Anytime Fitness. You'll work closely with them to learn the skills needed to be a high-performing coach. Each day outlines **what** they will learn and **how** they will learn it.
- Reference the Resource Center for best practices and welcome packets for the new coach.
- Each day averages between 4-6 hours of training. Some days, the coach might complete everything; others might take longer. The guides are meant to be guides, so check in with them about working ahead or bumping some tasks to the next day.
- **Everything highlighted in red requires you, the facilitator, to lead, observe, and/or train the new coach.**
- At the 60-day, 90-day, and 6-month mark, you will check in using the guides listed at the end of this guide.

LEARN **ON-THE-JOB** – you, the facilitator, are responsible for training the coach in real time. **ANYTIME ACADEMY** – the go-to education hub filled with courses, learning guides (guides to complement the course), and additional resources.

EXPERIENCE The coach will experience the skill just like a member would! The goal is to help the coach build empathy and understand the experience our members go through when they experience an AF Training session, fitness consultation, or membership tour.

After each experience, engage in a dialogue with the coach to hear what they thought, felt, and learned from it.

SHADOW The coach will shadow you, the facilitator, and conduct the skill. As they shadow, encourage them to follow along with the relevant Observation Feedback Form (found in the Resource Center and/or Academy) to see the operations and people skills used.

ROLE PLAY Time to put their skills into action with role play! Role play is essential for their growth at AF and should happen frequently. Role play involves three people:

- **Coach:** Individual conducting the skill
- **Member/Prospect:** Individual playing the role of member/prospect
- **Observer:** Individual watch and provide feedback

If three people aren't available, the individual playing the role of member/prospect can also provide feedback after the role play. Note: Role play does not require a facilitator to participate since it is more for the learner to practice their new skills.

GUIDED PRACTICE **It's time to DO the thing. The coach will take what they learned and put it into action. They will lead a session/consultation with a real member. You will observe and assist as needed. Afterward, engage in a feedback discussion using the Observation Feedback Form.**

ASSESSMENTS **ONLINE** – Complete in the Anytime Academy, the online assessments occur at the end of their first 30 days and cover all coach-relevant topics that they learned in their first 30 days.

IN-PERSON – Complete in-person with a real member; you will observe the coach complete the skill. Use the Observation Feedback Forms to provide feedback.
