Week 1: Understanding your Baseline and Goal Setting

In your first week, focus on understanding the purpose of Convertopia—*our destination for conversion success*—and evaluate how your club is currently utilizing the tools dedicated to strengthening your lead to member conversion metrics.

Step 1: Set Your Own Goals Based on Current Performance

Our current lead to member conversion % is _____

Locate this number by taking your overall new member number and dividing it by your overall lead number.

Club OS > Sales Performance > Overview > Closed Traffic & Divide by New Leads

To view breakdown by origin: Club OS > Leaderboard > New Leads Leaderboard by Origin

Step 2: Speed to Contact New Leads and Consistency

Importance: Consumers are more likely to purchase from the gym that responds to their inquiry quickly. Following up in a timely manner builds trust, engagement and shows you are excited to get them started. What tools are you using to decrease your speed to lead?

Step 3: Enhance Your Online Sign Up Experience

Step 3: Improve Manual and Automatic Follow Up Techniques

Importance: Automated follow-ups ensure no lead is missed, and provide timely, consistent communication, while manual follow-ups allow for personalization and relationship-building. Having a healthy balance between the two maximizes your efficiency and will create meaningful connections to help drive conversions.

This increases their likelihood to be back if you can keep AF top of mind. It is also critical from a safety and liability standpoint.
