

ONE-ON-ONE PERCUSSION RECOVERY CHEAT SHEET

- 1. Pre-Session Prep – 24 hours prior to the appointment**
 - a. Review the member's Club OS Profile
 - b. Call/Text/Email the member to confirm the session
- 2. Greeting (1-2 min) – Introduce yourself, start breaking down barriers early. Make a connection.**
- 3. Explain the Process (1-2 min) – In most cases the prospect knows very little or nothing about what will take place over the next 50 minutes. Explain percussion technology, myofascial release, and how it benefits them short term and long term. Next, explain "the plan." Break down the agenda of what you will be doing with them through the session. This allows them to be more at ease within the process and focus on what you're doing with them in the current moment.**
- 4. Conduct Assessments (15-20 min) – Stress (1-5 min) > High Five Warm-Up (3-5 min) *Only to be done if it has not been done within the past 90 days > ROM (7-10 min) > Body Scan (2-3 min)**
- 5. Strategize the Session (1-2 min) – Assess the data. Based on the data you gather, you can form and explain the plan of recovery work to be performed. The explanation of what you will do and how they will feel / benefit from it now and then in the long term is key. Don't miss the opportunity to paint the picture.**
- 6. Perform Recovery Work on Problem Areas (20-30 min / 10-15 min) – 3 to 5 areas for 2-5 minutes each area. Feel free to test the percussion tool on the clients palm prior to starting.**
- 7. Mindfulness Practice (2-3 min) – Supine or 90 / 90: box breathing, diaphragmatic breathing or guided meditation, etc.**
- 8. Reassess (5 min) – Address the important / most-improved areas. Connect questions to how great they're feeling after recovery work has been performed. Reframe the success around the "picture" you painted earlier in this appointment.**
- 9. Conclude the Session (5-10 min) – Assist the member to their feet / upright position. Using price presentation sheets, show them options for recovery services. Make a recommendation and ask them what option works best for them. Supply recovery homework, schedule their next appointment, and thank them.**
- 10. Clean and Organize (3-5 mins) – Yup, tidy up. Schedule and update / upload all notes and / or forms in Club OS.**
