Change in Monthly Index During Active GLP-1 Usage vs. Nonusers

Category	Pre-GLP-1 Usage Baseline	Year 1
Drinkware	115	28.2
Toothbrush/dental accessories	104	17.6
Water filtration replacement filters	103	16.0
Lip treatment	111	13.7
Foil pans	120	13.3
Weight control (nutritional supplement liquids/powders)	133	12.0
Gastrointestinal	115	11.6
Eye/contact lens care product	104	8.7
Adult incontinence	120	8.2
Feminine needs	142	5.1
Air fresheners	121	4.5
Upper respiratory	114	3.4

Sources: Circana Complete - June 2022-June 2024//GLP-1 cohort consumption levels are then compared to the "consumption index" - index of 110 implies the GLP-1 cohort is consuming at a rate ~10% higher than the non-user cohort.

SUB-CATEGORY	NON-GLP-1 USER	WEIGHT LOSS GLP-1 USERS
Health and Beauty Care Overall	-0.5%	+14%
Electrolyte supplements	+108%	+202%
Pregnancy test kits	-20%	+148%
Hair growth products	-10%	+108%
GI Care – Anti-Nausea	-9%	+77%
Iron Supplements	+7%	+62%

ANALYSTS EXPECTED TAM GROWTH FOR THE U.S. GYM MARKET

WITH EACH MARKET APPROACHING GLP-1 FITNESS IN VARYING DEGREES AND MEASURES

PAUL

A need to quiet the pressure

"For the first time, I don't feel like I have to punish myself with endless cardio just to keep weight off. The GLP-1 takes care of that, which means I can actually focus on other parts of working out that I never could have time for before"

CINDY

A desire to rebuild habits

"I just want to get back to the health routines that used to feel easy. Now that I am finally losing weight, I am able to rediscover those things"

JENNA

A need for holistic support

"To me, wellness isn't about just one thing, if I only focus on weight or exercise, it all falls apart. It's a full system, mental health, nutrition, movement, even my relationships."

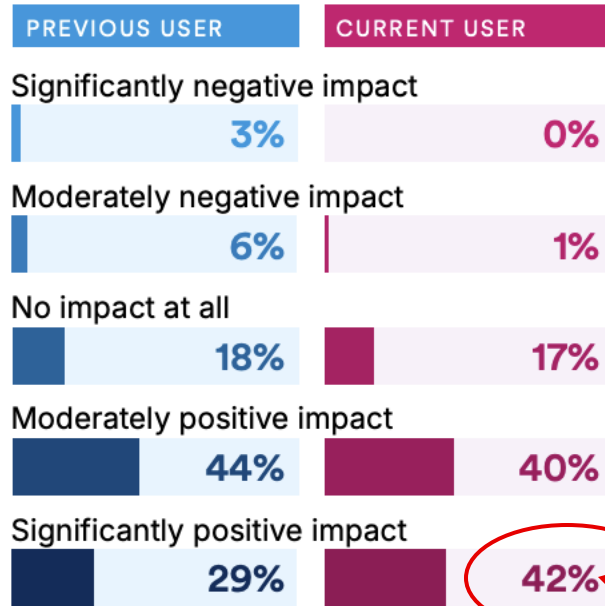

JESSICA

A need for real-life solutions

"Before GLP-1, nothing fit into my life. The diets, the workouts, they all demanded so much time and energy, and I'd barely see any results. For the first time, I feel like I can actually live my life and lose the weight."

However, it can be
tough for them to
STICK TO IT

FITNESS CAN BE INTIMATING OR FOREIGN AT TIMES

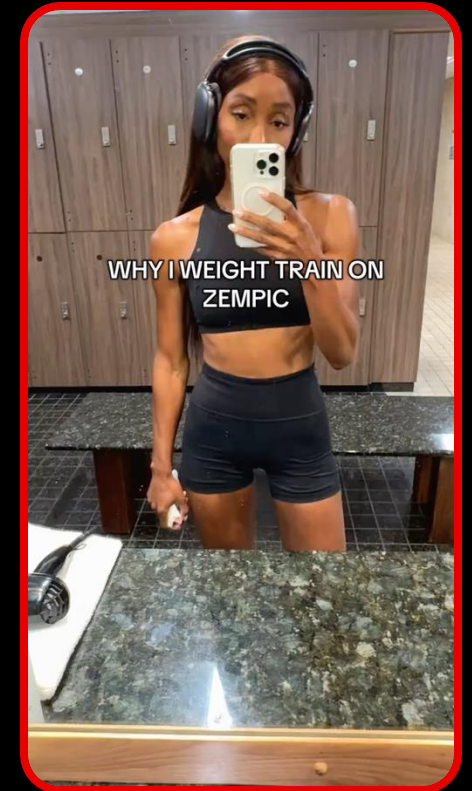

THE NEWBIES:
Have never consistently worked out
or been a gym-goer

THE COMEBACKERS:
Used to consistently workout,
but hasn't for years

THE STUCK:
Has always worked out, but
unable to reach or maintain goals

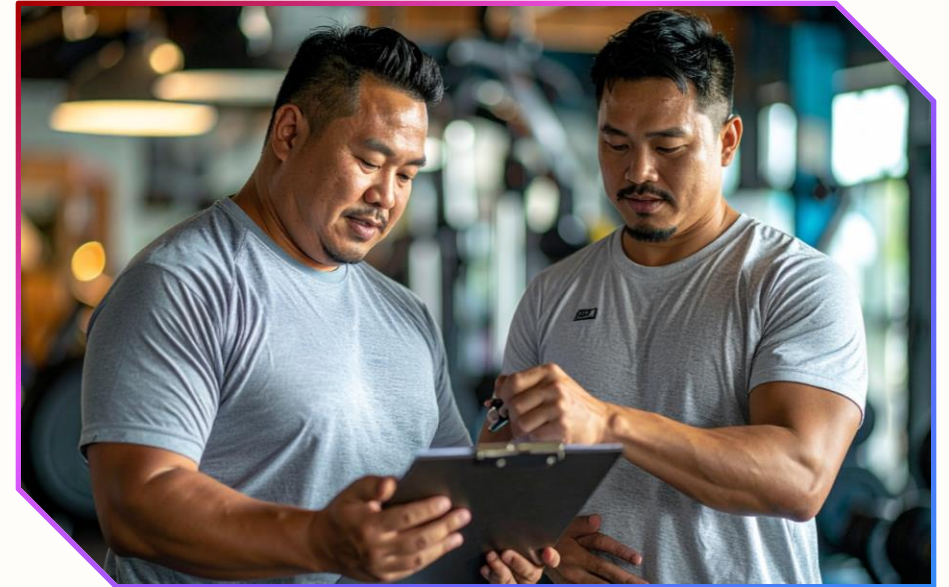

THE ACCELERATORS:
Consistent exercisers, but seeking
an extra edge through GLP-1s

GLP-1s represent an invitation to meet users where they're at

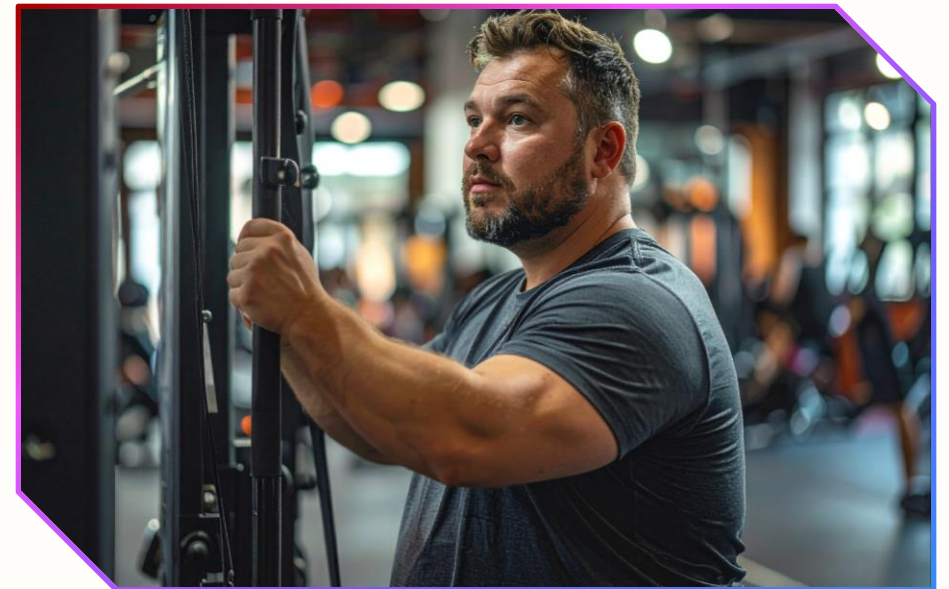

WHAT IF THE REAL WORKOUT WAS

Gut-wisdoms gain control over eating but carry new physical and emotional burdens. They need fitness to build confidence, not feel like another source of pressure.

WHAT IF FITNESS EVOLVED WITH EVERY CHANGE?

GLP-1 users' bodies and identities change quickly. They need adaptive fitness plans that grow with them, rather than one-size-fits-all programs that leave them behind.

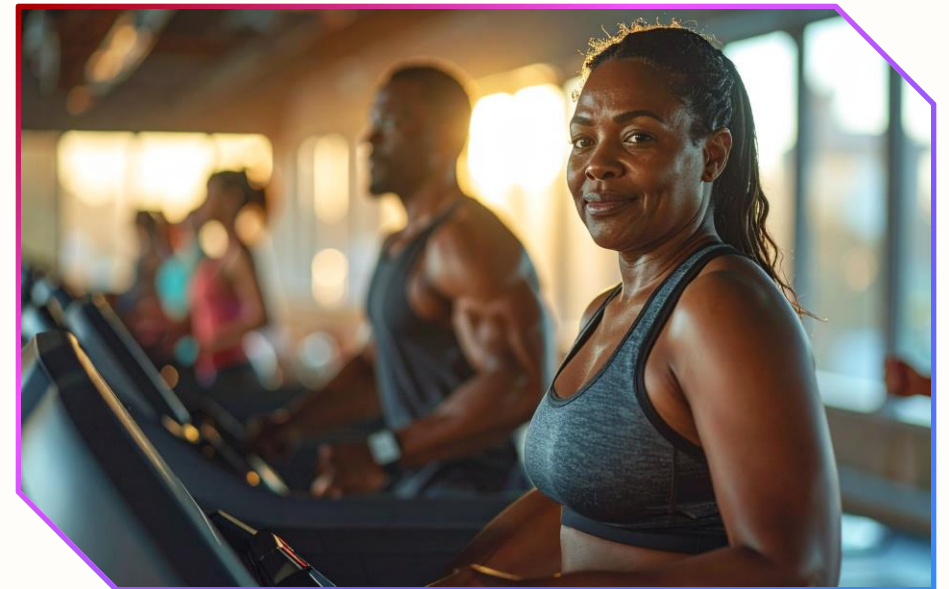

WHAT IF BELONGING WAS PART OF THE PACKAGE?

GLP-1 users crave relatable peer support but often feel isolated due to privacy concerns and busy lives. They need purposeful, authentic ways to connect that foster belonging without exposure.

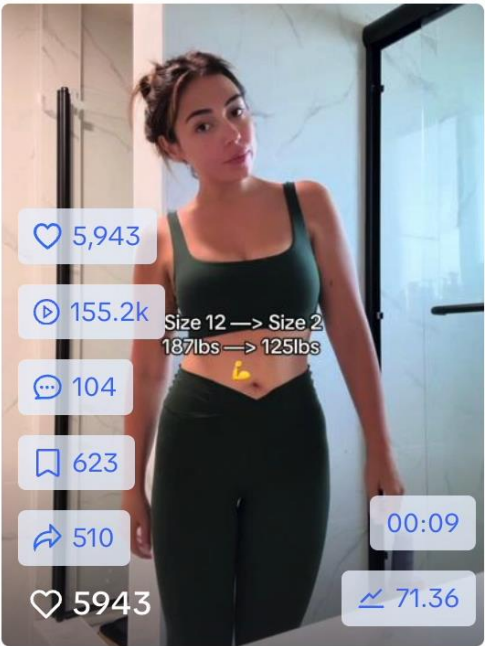

WHAT IF TREATMENT CAME WITH A LIFELONG PLAN?

GLP-1 users lose weight during treatment but are left without guidance afterward. They need fitness to provide a long-term plan that sustains progress beyond medication.

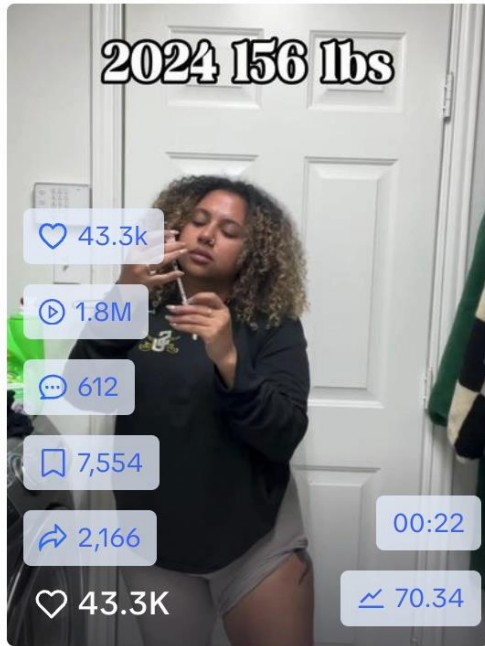

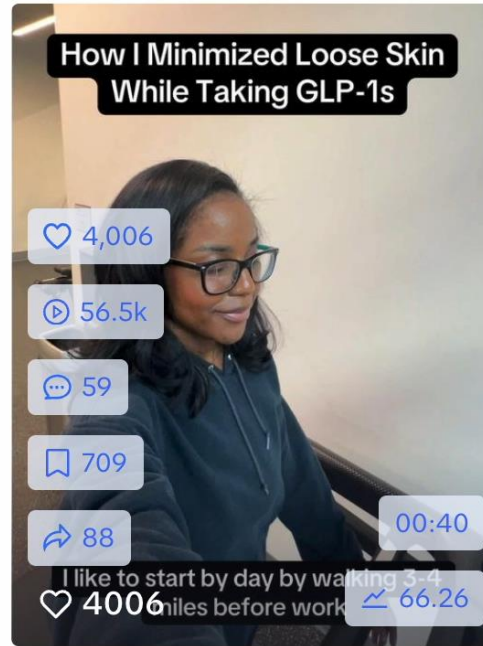

THE EVOLUTION OF GLP-1S IS FIT SKINNY
