KOSMOS

We need to create a platform that can scale to support our massive growth ambitions.

STABILIZE

Rapid growth has created inconsistencies, gaps, and fragility.

SIMPLIFY

Our brands fundamentally need the same core capabilities. 20 years of change has created needless complexity.

CONSOLIDATE

Scale has created a complex network of vendors and systems.

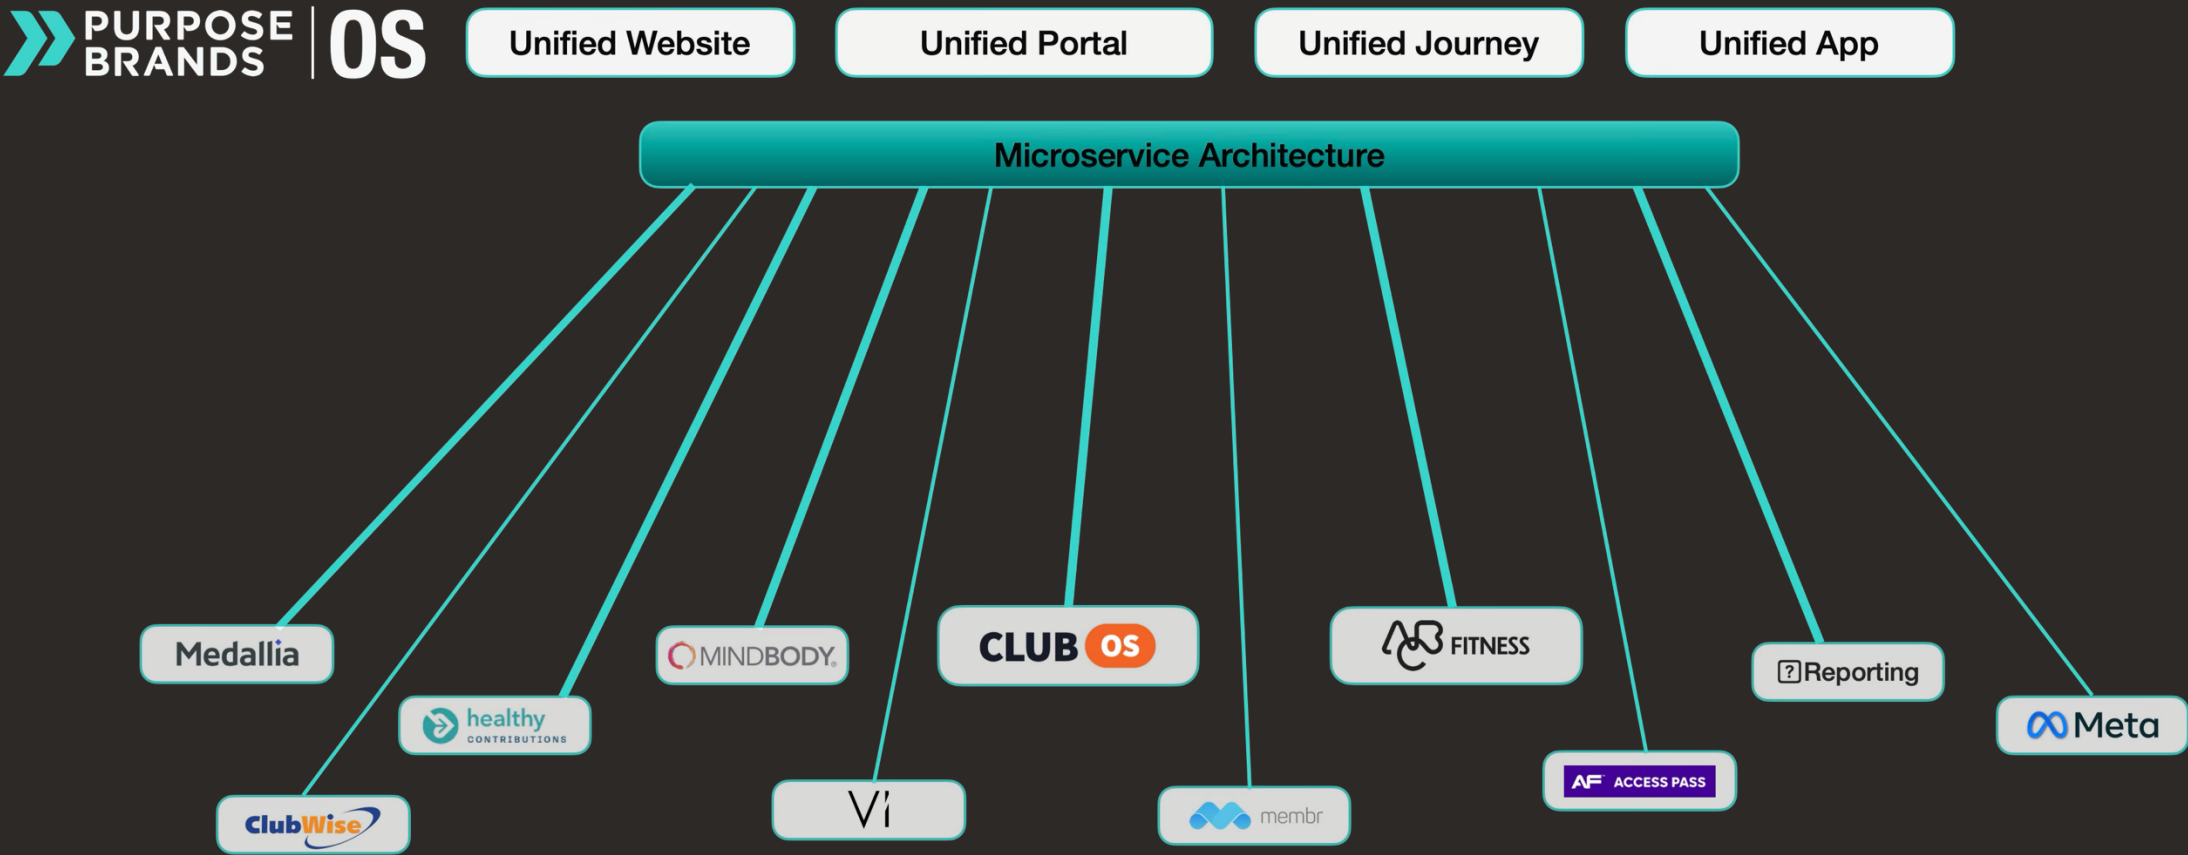

OWN

If we create this, Purpose Brands has more direct control over its growth & future.

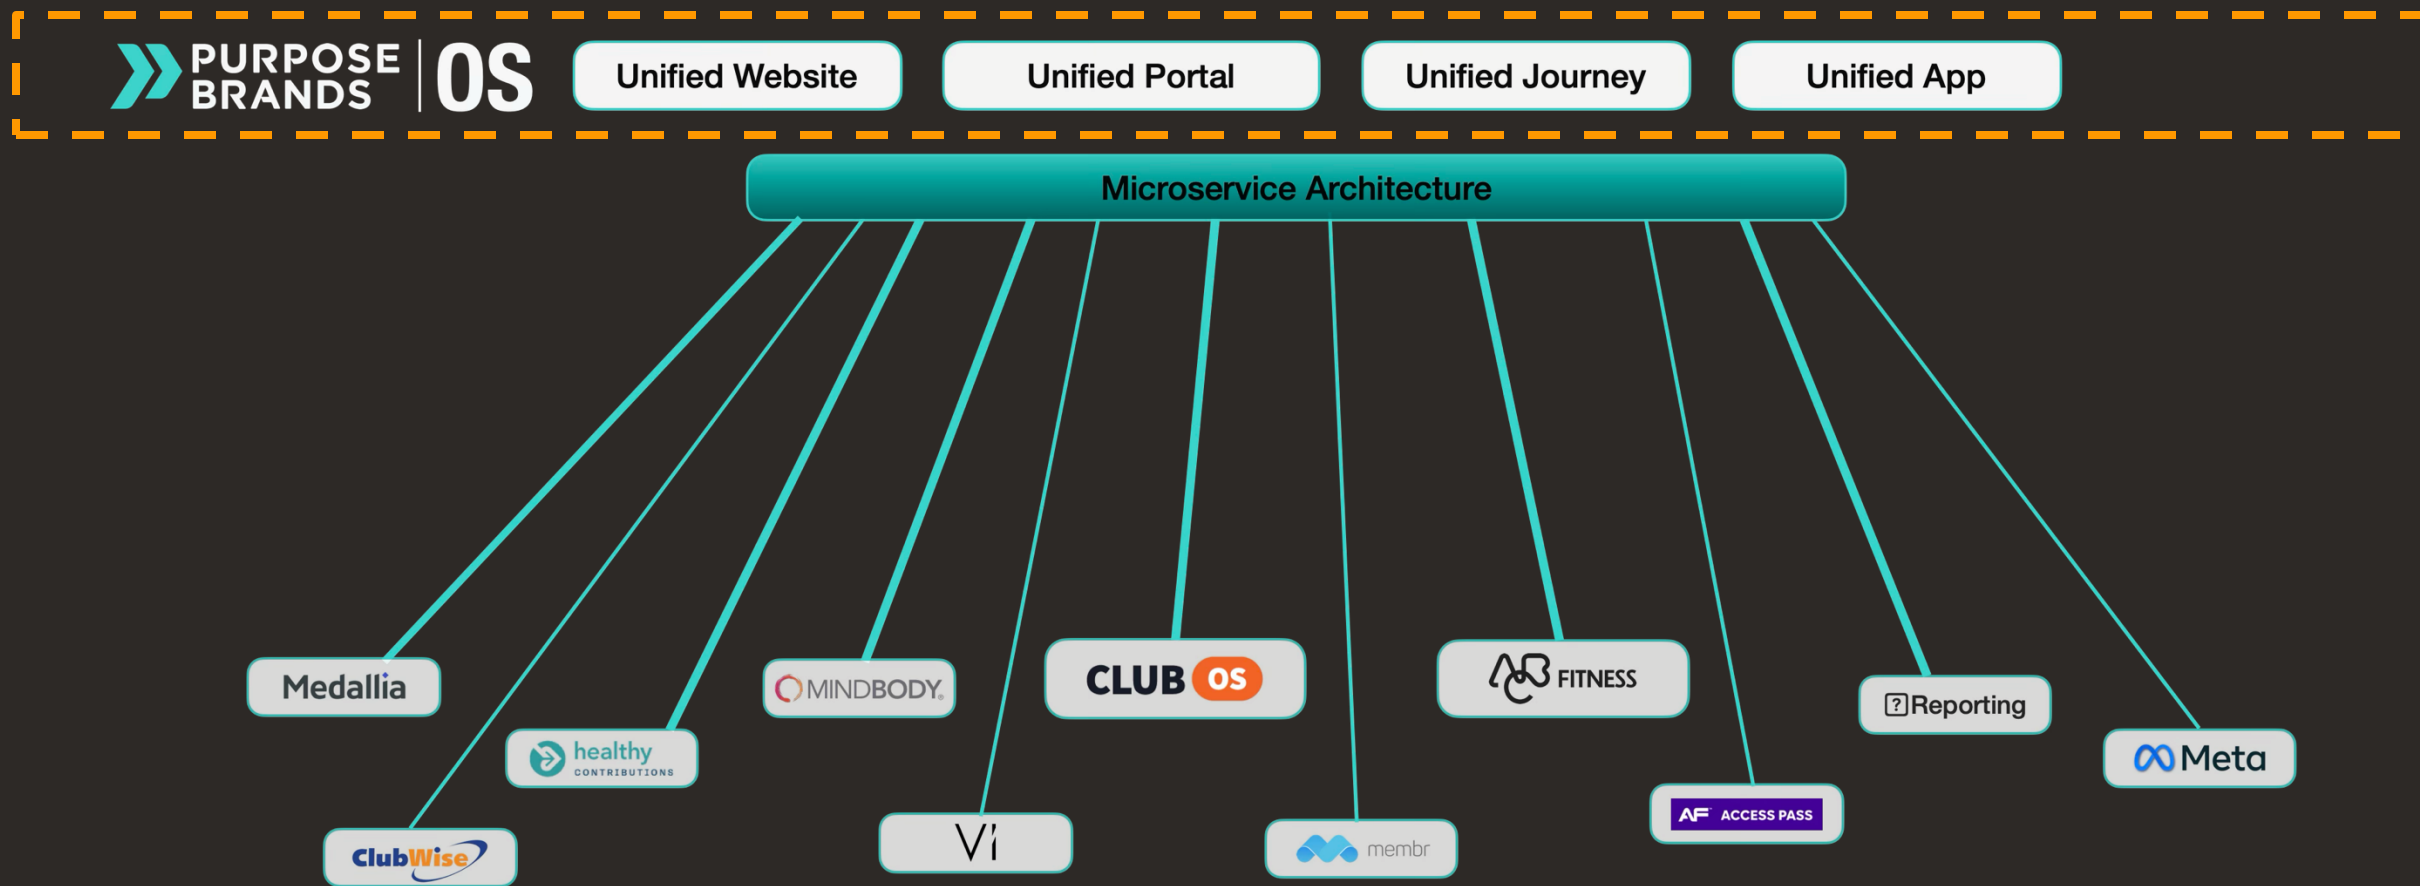

KOSMOS ARCHITECTURE

By building our own abstraction layer, we decouple from vendors and own the experience.

WHAT IS SPOG?

A simple pane of glass built on top of our abstraction layer, allowing us to control the experience.
