**YOU'RE NEVER GOING  
TO BUY DOG FOOD  
FROM ANYONE ELSE**

Lost our golden two months ago, and chewy credited back almost \$300 worth of food and medicine. Still makes me tear up, but when we get another dog I'll 100% be using Chewy again

Chewy sent us a painted portrait of our dog. idk who runs chewy but other corporations need to take note.

Our dog's food delivery got lost in transit (very rarely happens). I called customer care to get it sorted. In the conversation, it came up that I was 6 month pregnant with our first. A week later, I received a Chewy onesie, What Pet Should I Get Dr. Seuss Book, and written congratulatory card. Customer for life!!!!!!

I didn't get flowers. I got a painting. I legit painted portrait of my dog. It was one of the best things that's ever happened in my life. I will never shop anywhere else.

Empathy and humanity from a corporation is so unheard of that this really is astounding.

Simple genius. Company shows compassion and gets a customer forever.

chewy
