

Vi & AF Smart Engagement Web Tool

- **Every Monday:** expect ~10-20 flags in the web tool for “Increase Usage” and “Reduce Attrition”
- For each flag: research the member, then execute an informal, personalized outreach in ClubOS

Engagement Plan (ClubOS):

Outreach Guidelines:

DOs:

PERSONALIZE YOUR MESSAGING

- Use the members first name
- Research something personal in member notes/consultation

ADD VALUE

- Offer something of value (Coaching Assessment, EVOLT Scan)

KEEP TONE INFORMAL

- Use natural, conversational language like you’re speaking to a friend or colleague.
- Example: *“Hey Chris, awesome to see your progress towards your weight loss goal after 6 months at Anytime! I’d love to find a time to schedule a coaching assessment to pull together a personalized plan. When is a good time?”*

DON'Ts:

DO NOT MENTION THE FLAGGING REASON

- avoid stating the obvious (They know!)

DO NOT USE FORMAL / TEMPLATED MESSAGES

- Don’t sound like an automated template
- Don’t sound like a marketer / advertisement
