

Anytime Fitness COVID-19 Cleaning Checklist

(Last Updated 3/15/2020)

Resources:

[Environmental Cleaning & Disinfection Recommendations](#) (CDC)

[Coronavirus: Prevention & Best Practices for Your Gym](#) (IHRSA)

[Club Cleaning Checklist](#) (Resource Center)

[Guidance for Cleaning & Disinfecting Public Areas](#) (NY Department of Health)

Gym owners and staff should educate themselves on the symptoms and preventing the spread of COVID-19 in gyms. The standard [cleaning checklist](#) is a great resource, however the list below will include additional areas that should be disinfected in addition to the standard cleaning protocols. Cleaning and disinfecting should only be conducted by staff who have been trained to use the products in a safe and effective manner.

If you have a standard cleaning company in place, communicate with the company to determine an agreed plan to ensure your facility maintains the highest level of cleanliness and disinfecting necessary. If a cleaning company is not used, internal cleaning will need to be completed by the franchisee and staff available. This should be above and beyond your standard cleaning protocol.

If you are in a region or county with an ongoing, sustained spread of coronavirus, seek advice from your local, regional or national health authorities on how to proceed. They will advise local businesses and the public on the proper protocols to protect the community.

- **Cleaning** refers to the removal of germs, dirt, and impurities from surfaces. Cleaning does not kill germs, but by removing them, it lowers their numbers and the risk of spreading infection.
- **Disinfecting** refers to using chemicals to kill germs on surfaces. This process does not necessarily clean dirty surfaces or remove germs, but by killing germs on a surface *after* cleaning, it can further lower the risk of spreading infection.

*General Note of Recommendation: While the use of single-use cleaning supplies (i.e. Gym Wipes) are most effective, use a spray bottle and solution with a rag if single-use supplies are out temporarily.

Disinfection of Non-Porous Surfaces

- Wear disposable gloves when cleaning and disinfecting surfaces. Gloves should be discarded after each cleaning. If reusable gloves are used, those gloves should be dedicated for cleaning and disinfection of surfaces for COVID-19 and should not be used for other purposes. Consult the manufacturer's instructions for cleaning and disinfection products used. [Clean hands](#) immediately after gloves are removed.
- If surfaces are dirty, they should be cleaned using a detergent or soap and water prior to disinfection.
- For disinfection, diluted household bleach solutions, alcohol solutions with at least 70% alcohol, and most common EPA-registered household disinfectants should be effective.
 - Diluted household bleach solutions can be used if appropriate for the surface. Follow manufacturer's instructions for application and proper ventilation. Check to ensure the product

is not past its expiration date. Never mix household bleach with ammonia or any other cleanser. Unexpired household bleach will be effective against coronaviruses when properly diluted.

Prepare a bleach solution by mixing:

- 5 tablespoons (1/3rd cup) bleach per gallon of water or
- 4 teaspoons bleach per quart of water

Disinfection of Soft Porous Surfaces (Carpeted Floors, Rugs, Towels, etc.)

- Launder items in accordance with the manufacturer's instructions.
- If possible, launder using the warmest appropriate water setting and allowing item to dry completely.

Towels:

- ☐ It is recommended to limit or stop the use of towel services in your location.
- ☐ If towels are used, wear disposable gloves when handling the dirty towels and discard gloves after use.
- ☐ Do not shake towels to limit the dispersing of the virus throughout the air.
- ☐ If possible, launder with the warmest setting possible and dry completely.
- ☐ Clean and disinfect any used hampers.

Entrances:

- ☐ Disinfect key fob reader
- ☐ Disinfect guest and member door handles (both external and internal handles)
- ☐ Disinfect any additional front entrance doors or surfaces (if applicable)

Guest and Member Lobby:

- ☐ Sweep and mop all floor surfaces
- ☐ Add CDC Coronavirus [poster](#) in lobby
- ☐ Disinfect tables, chairs, and shelves
- ☐ Clear out and disinfect retail wall
- ☐ Disinfect all vending machine exterior buttons and glass
- ☐ Disinfect inside and around cubbies and benches
- ☐ Disinfect Front Door Handles and Push Bars
- ☐ Vacuum entryways and high-traffic areas
- ☐ Disinfect Key Fob Scanner

Bathroom

- ☐ Disinfect Door Handles
- ☐ Disinfect Light Switches
- ☐ Disinfect Faucets
- ☐ Disinfect Toilet Seat and handle
- ☐ Disinfect Shower Handle
- ☐ Disinfect Soap dispensers (Ex. Top of push soap dispenser)

- ☐ Disinfect Paper Towel or Air Dryer surfaces, consider stopping the use of hand dryers and adding single-use paper towels during this time
- ☐ Remove Trash
- ☐ Add hand-washing [poster](#) in all bathrooms

Tanning/Hydromassage Rooms and Beds, if applicable

- ☐ Disinfect all surfaces in tanning/hydromassage bed
- ☐ Disinfect all buttons
- ☐ Disinfect light switches

Office Space

- ☐ Disinfect Money Box/Bag - wash/disinfect hands after the touching of money
- ☐ POS card reader
- ☐ Disinfect Computer/Laptop Keyboard/Mouse
- ☐ Disinfect Light Switches
- ☐ Disinfect iPads
- ☐ Disinfect Desk Surfaces and Chairs, including chair arms
- ☐ Disinfect Phone Surfaces

Equipment – Including Cardio, Functional Training, Strength, Tanning, Hydro Massage, Body Scanners

- ☐ Clean and disinfect after each use, this can be done by providing disinfecting solution or wipes for members to use.
- ☐ Disinfect all buttons, handles and surfaces that are touched during the use of the equipment

Cardio:

- ☐ Disinfect the sides of all machines and behind
- ☐ Vacuum carpet around cardio machines
- ☐ Disinfect Television screen and buttons
- ☐ Disinfect Handrails
- ☐ Disinfect Consoles

Functional Training:

- ☐ Remove all functional equipment from racks and disinfect
- ☐ Disinfect all handles and weights for dumbbells and kettlebells
- ☐ Disinfect all external surfaces of functional equipment

Selectorized Machines:

- ☐ Disinfect all upholstery, follow manufactures guidelines on a recommended solution
- ☐ Clean pins for weight selection
- ☐ Vacuum carpet around machines
- ☐ Disinfect all handles

Strength Training:

- ☐ Disinfect Barbells
- ☐ Disinfect weighted plates and plate racks
- ☐ Disinfect Benches
- ☐ Remove all dumbbells and clean dumbbell rack
- ☐ Disinfect dumbbell handles
- ☐ Disinfect Squat racks and pull-up handles
- ☐ Mop strength floor with disinfectant solution

Studio:

- ☐ Sweep and mop studio floor
- ☐ Disinfect handles and door to studio room
- ☐ Wipe down mirrors
- ☐ Disinfect all floor mats

Evolt/Body Scanning & MyZone Devices

- ☐ Disinfect EVOLT and/or any Body Scanning Devices or Measurement Devices after every use
- ☐ Educate staff and members to disinfect their MyZone devices
 - Remove the module and hand-wash with a light detergent to preserve the life of the belt

Shared Workspace/Common Areas/Breakrooms:

- ☐ Disinfect Vending Machine Buttons and Dispensing Doors
- ☐ Disinfect all panic buttons
- ☐ Disinfect all TV/Equipment Remotes
- ☐ Disinfect Table and Chair Surfaces
- ☐ Disinfect any Refrigerator/Cooler Door Handles and Interior Doors
- ☐ Remove Trash
- ☐ Disinfect Water Fountain Push Buttons and Spouts
