Getting started

This guide is full of easy recipes and food combinations to keep you fueled while you complete the 21-Day Real AF Reboot.

We know nutrition is not one-size-fits-all. This guide was designed to help provide structure for healthy eating but allows enough flexibility to figure out what that looks like for you.

The one thing healthy eating has in common for everyone, is that it's sustainable and works for the long term. If that sounds intimidating, don't worry! We're in this together, creating a healthy lifestyle that finally sticks!

Our top tips **for success:**

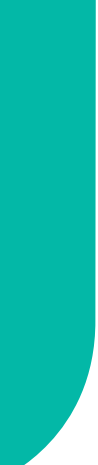

- **Make it work for you.** This guide is just that—a guide. While we've laid out a 21-day meal plan, feel free to make changes based on your budget, taste preferences, and time.
- **Schedule time each week for grocery shopping and meal prep.** Designate one or two days per week (we love Sundays and Wednesdays) for going grocery shopping, portioning your snacks, and cooking several days' worth of food.
- **Stock up on healthy snacks.** Reference the healthy snack recommendations on page 8 and have snacks pre-portioned and available at all times. Having healthy snacks on hand can be a game changer when it comes to sticking to your nutrition plan.
- **Eat what you like.** If you see a recipe that has an ingredient you hate, substitute it with something else! Don't force yourself to eat food you know you don't enjoy. If you love one of the recipes and want to make it weekly, go for it. Eat what you like!

How to use the meal plan

As we mentioned previously, nutrition is **absolutely not one-size-fits-all**. Each person's body has different nutritional needs based on activity level, metabolism, medical history, and countless other factors.

This guide
was designed
**intentionally
to serve
two purposes:**

- **First**, to provide you with a 21-day framework for healthy eating, complete with recipes, grocery lists, and meal prep recommendations. This guide is built in a way that provides structure, but also some flexibility so that you can easily make it fit into your lifestyle.
- The **second**—arguably more important purpose—is to provide you knowledge and skills to create your own, personalized nutrition plans to guide you through building sustainable, healthy habits for the long run, not just for these 21 days.

The Real AF 21-Day Meal Plan

How it works

Within this meal plan, you'll find three weeks' worth of meals. Each day includes a recommended breakfast, lunch and dinner. Snacks and desserts are totally up to you, though you can find our favorite snacks on page 8!

You'll notice some meals simply say "Your Pick". These are intended to account for days where you go out for lunch at the office, catch a weekend brunch with friends, or simply want to order a pizza for a night in with your family. Yes—you are allowed to have a few "imperfect" meals! Again, we're building sustainable habits here—not an airtight, no-sweets-allowed plan that is basically impossible to keep up. It's all about moderation and making intentional choices.

Please note, we don't do "cheat meals" here—meaning we don't call a couple slices of pizza cheating. There's no shame involved in our game. Enjoy that slice of pizza pal! Just maybe stick to a slice or two and add a big plate of veggies on the side while you're at it.

Serving sizes

This guide is designed to feed two people for 21 days. Each recipe makes four servings (unless otherwise stated), so each person is intended to have the meal twice (one fresh, one as leftovers). If you are cooking for one, we recommend halving all recipes, so you don't end up with too many leftovers. If you are cooking for a family, double or triple each recipe to account for how many people you are cooking for.

Simple, sustainable staples

We're here to help you create a healthy lifestyle that sticks. We've got your back through these 21 days, and together we'll be building a foundation for your nutrition that will empower you beyond the final page of this guide. How does that work? Well, instead of telling you what to eat for every single meal, we've put together a few handy guides for how to create easy, healthy "staple" meals that you can continue to incorporate into your version of eating right throughout your health journey.

Easy snacks to stay on track

We're here to share some important information with you: Snacking doesn't deserve the bad reputation it gets. Why? Because snacking helps keep your blood sugar regulated and helps squash hunger that pops up between meals. If you skip a snack after lunch and ignore your body's hunger cues, you're more likely to overindulge at dinner or with a late-night snack. Healthy eating means listening to your body. Fueling your body when it's hungry is always the right thing to do.

The key to healthy snacking is picking good-for-you foods and eating them in moderation. A good snack size for most people is between 100–200 calories with a good balance of complex carbs, fat, and protein.

If you're eating a quick snack for energy before a hard workout, focus on carbs that will digest quickly to give you power. A piece of fruit with natural sugar is perfect! On the flip side, if you want to recover after a workout, seek out snacks with protein and carbs to help your muscles rebuild and refuel.

Here are our favorite, easy snack combos that will keep you full, fueled and satisfied.

- 1 cup carrots + 2 Tbsp. hummus
- 1 cup cucumber + 2 Tbsp. guacamole
- 2 cups air-popped popcorn
- 2 hard-boiled eggs

- 2 rice cakes + 1/2 avocado or 2 Tbsp. nut butter
- 1/2 cup plain, full-fat Greek yogurt and 1 cup fruit

- 1 small apple + 2 Tbsp. nut butter

Banana Pancakes

2 servings | 300 calories | 15g fat | 29g carbs | 15g protein

Ingredients

2 medium bananas

4 large eggs

1/2 cup almond meal

1/2 tsp. baking powder

*Optional: Vanilla extract, protein powder,
chia seeds, flax seeds, pumpkin puree,
nut butter*

Directions

1. Thoroughly mix all ingredients together in a small bowl, making sure to get rid of any lumps.
2. Heat a pan over medium heat and spray with non-stick cooking spray.
3. Pour batter onto pan (~2 tablespoons per cake). The batter will be a little bit thinner than normal pancakes, so you don't need as much to make one pancake.
4. Let cook for about a minute, and then flip. Cook for an additional minute on the other side.

One-Pan Crispy Peanut Chicken Thighs + Vegetables

6 servings | 440 calories | 30g fat | 22g carbs | 35g protein

Ingredients

2 garlic cloves, minced
Juice of one lime
2 Tbsp. olive oil
1 1/2 lbs bone-in, skin-on chicken thighs
1 large red onion, sliced into wedges
2 bell peppers, sliced into large chunks
3 cups broccoli, cut into large pieces
(fresh or frozen)

Salt and pepper, to taste

*Optional garnishes: crushed peanuts,
chopped cilantro, chopped green onions,
fresh lime, crushed red pepper, etc.*

Sauce Ingredients

1/4 cup creamy peanut butter
1/4 cup low-sodium soy sauce
2 Tbsp. rice vinegar
1 garlic clove, minced
1 Tbsp. fresh ginger, minced
up to 1/4 cup cold water

Directions

1. Preheat the oven to 400 degrees F.
2. In a bowl, mix the garlic cloves, lime juice, olive oil, salt and pepper. Smother each piece of chicken with the mixture, making sure to get under the skin of each piece for extra crispiness.
3. In a 13×9 casserole dish, toss the red onion, bell peppers and broccoli with a small amount of olive oil, salt and pepper (most of the cooking fat will come from the chicken).
4. Place the chicken thighs on top of the vegetables. Roast for about 1 hour or until the chicken is cooked through.
5. Let the chicken rest for about 10 minutes.
6. While the chicken is cooking, make the peanut sauce. Use an immersion blender (or regular blender) to mix together the peanut butter, soy sauce, rice vinegar, garlic and ginger. Once thoroughly smooth, add cold water (up to 1/4 cup) slowly until you reach your desired sauce consistency.
7. When you are ready to serve, garnish the chicken and vegetables with the peanut sauce and whatever other toppings you like.

Taco Stuffed Sweet Potatoes

4 servings | 460 calories | 17g fat | 31g carbs | 45g protein

Ingredients

4 large sweet potatoes, baked
(in the oven or microwave)
1 lb. ground beef
Pinch of salt
2 tsp. cumin
1 tsp. chili powder
1/2 tsp. paprika
1/2 tsp. oregano
1/2 tsp. garlic powder

1 tsp. tomato paste
1 cup sharp cheddar cheese, shredded

*Toppings as desired: salsa, sour cream,
cilantro, lime, shredded lettuce, fresh
tomato, onion, guacamole, etc.*

Directions

1. To bake sweet potatoes in the oven, pierce the skin with a fork and bake at 425 degrees F for about 45-50 minutes.
2. In a large skillet, brown the ground beef with the salt. Once browned, add the cumin, chili powder, paprika, oregano, onion powder, garlic powder, the optional cayenne pepper and mix well.
3. Add the diced tomatoes and simmer until the tomatoes melt into the mixture, about 10 minutes, stirring occasionally.
4. Slice into each sweet potato lengthwise to open and mash gently to allow for filling.
5. Spoon about 1/4 cup taco filling into each potato.
6. Top with cheese and your favorite fixings

Make-Ahead Spinach, Feta and Egg Cups

4 servings | 215 calories | 15g fat | 2g carbs | 18g protein

Ingredients

1/4 cup milk
10 eggs
1/3 cup feta
2 Tbsp. minced fresh chives
1 cup chopped leafy green spinach
Salt and pepper, to taste

Directions

1. Preheat your oven to 350 degrees F.
Spray a muffin pan with olive oil non-stick spray, set aside.
2. In a medium bowl (use a large bowl if doubling the recipe), whisk the egg and milk, until smooth and lightly colored. Season with salt and pepper.
3. Add in the feta, chives, and spinach to the whisked eggs mixture, and stir to combine. Now's the time to add any additional spices or veggies you might have.
4. Pour egg mixture into each prepared muffin cup (about 1/3 cup per cup), and then bake in the preheated oven for 15–17 minutes, or until the cups are solid and slightly brown on top.
5. Let the egg muffins cool for 10 minutes, and then remove them from the muffin tin. Store in an airtight container in the fridge for 4–5 days.

Egg Roll Bowl

4 servings | 300 calories | 12g fat | 24g carbs | 28g protein

Ingredients

1 lb. ground turkey
1 Tbsp. fresh ginger, minced
3 garlic cloves, minced
2 Tbsp. low sodium soy sauce
1 Tbsp. rice vinegar
16 oz. mushrooms, sliced
1-2 Tbsp. olive oil
1 16-oz. bag coleslaw mix
2 cups carrots, shredded
2 green onions, chopped
Salt and pepper, to taste

Directions

1. On medium-high heat, brown ground turkey, seasoned with salt and pepper, until fully cooked.
2. Turn the heat down to medium. Add the garlic and ginger and cook until fragrant, about 45 seconds. Then, add soy sauce and rice vinegar and mix everything together thoroughly. After another minute or two, remove the meat mixture from skillet and set aside.
3. In the same pan (no need to wipe it out), add the mushrooms and sauté until nicely browned. Set those aside with the meat.
4. Add a little olive oil to the pan and sauté the coleslaw mix and carrots together with salt and pepper to taste. They should be tender but still have a little crunch.
5. Stir the meat mixture and mushrooms back into the pan until everything is heated through.
6. Split into four servings, and top each serving with green onions.

Salmon with Mango Strawberry Salsa

4 servings | 300 calories | 12g fat | 24g carbs | 28g protein

Ingredients

4 4-oz. wild-caught
salmon filets, thawed
2 ripe mangoes, diced
1 cup diced fresh strawberries
4 green onions, sliced
1/2 cup chopped fresh cilantro
Salt and pepper, to taste
Juice of 1 lime

Directions

1. Preheat oven to 400 degrees F. Line a small baking sheet with parchment paper and place the room temperature salmon filets skin-side-down onto the parchment. Season with salt and pepper.
2. Bake salmon in preheated oven for 10–12 minutes for a filet under 1" thick. You'll want to start checking for doneness around the 10-minute mark (overcooked salmon = not good). You'll know it's been in the oven for the appropriate amount of cook time when the salmon looks opaque and flakes easily with a fork, so it's more about look than cook time, really. But if you have a meat thermometer, you'll want the internal temperature at about 145 degrees F, and since salmon continues to cook after it's pulled out of the oven, we recommend doing that when it reaches an internal temperature of 140 degrees F.
3. While the salmon is roasting, combine the diced mango, strawberries, green onions, cilantro, lime juice, and salt and pepper to taste in a medium-size mixing bowl. Toss to combine. Set aside and serve at room temperature when the salmon is ready.
4. Serve salmon hot with salsa on the side. Garnish it with additional lime wedges and chopped cilantro, if desired.
